CHAS. A. BENTLEY, M.B., D.P.H., D.T.M. & H., Director of Public Health, Bengal.

Calcutta, the 8th September 1927.

## DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 7th September 1927.

**Summary.**—During the week the rainfall was generally light excepting in parts of North Bengal, Mymensingh and the Chittagong Division where it was moderate to heavy. Transplantation of winter paddy seedlings continues, but more rain is still needed for the progress of the operation. Cutting of jute is proceeding, but want of adequate water for steeping and washing is still being felt specially in parts of North Bengal. Harvesting of autumn paddy is nearly over. The condition and prospects of standing crops have somewhat improved by the recent rain. Distress prevails in parts of the Rampurhat subdivision of the Birbhum district where test relief works have been opened and 400 persons are working daily since the 1st September 1927. The average price of common rice for the province has risen by about 0·63 per cent. as compared with that of the previous week.

Serial No.	District and subdivision.	Rainfall.	Price of common rice, in mow, per rupee.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	
		Inches.			
1	24-PARGANAS...	0·64	5	5	Weather seasonable. Transplantation of <i>aman</i> paddy is over in Diamond Harbour. <i>Aus</i> paddy is being harvested. Condition of jute is good. Harvesting is going on at Baraset and Basirhat. Fodder and water are sufficient.
	Diamond Harbour.	1·20	5½	5½	
	Barrackpore ...	1·88	5	5	
	Baraset ...	1·20	5	5	
	Basirhat ...	2·73	5	5	
2	NADIA ...	1·03	4½	4½	Weather seasonable. More rain is badly wanted for <i>aman</i> paddy. Harvesting of jute and <i>aus</i> paddy is in progress. Want of water is felt for steeping of jute. Condition of jute and weather effects are not favourable. Some damage to jute by insects is reported from Kushtia. Fodder and water are sufficient.
	Kushtia ...	0·35	5½	5½	
	Meherpur ...	0·92	6½	6½	
	Chuadanga ...	1·13	6	6	
	Ranaghat ...	1·02	4	4½	
3	MURSHIDABAD	1·25	4½	4½	Weather rainy. Meagre transplantation of winter paddy has been made for want of timely rain, hence the crop prospects are uncertain. Effects of weather on jute are fair. Prospects of jute are not good. Some damage is being done to the crop by insect-pests and drought. Harvesting continues. Fodder is sufficient.
	Lalbagh ...	1·08	4½	5	
	Jangipur ...	1·60	5	5½	
	Kandi ...	1·49	5	5	
4	JESSORE ...	3·57	5	5	Weather cloudy. Its effects on jute are good. Prospects of jute and other standing crops are fair. No damage to jute is reported. Harvesting and steeping of jute are going on. Recent rain has done good to the standing crops. Transplantation of <i>aman</i> paddy continues. Fodder and water are sufficient.
	Jhenidah ...	2·72	5½	5½	
	Magura ...	3·64	5	5	
	Narail ...	2·25	4	5	
	Bougaon ...	2·68	5	5	
5	KHULNA ...	1·42	5	5	More rain wanted. Weather effects on crops are fair. No large export is reported. Condition of jute is fair. Effects of weather on the growth of jute are harmless. No damage is reported. Harvesting continues.
	Satkhira ...	2·22	5	5	
	Bagerhat ...	3·53	4½	4½	

Serial No.	District and subdivision.	Rainfall.	Price of common rice, in annas, per rupee.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
6	BURDWAN ...	2.74	5	5	Weather hot and cloudy. Transplantation of <i>aman</i> paddy and harvesting of jute continue. Prospects of <i>aus</i> paddy are not good but those of jute fair. More rain is wanted. Rice market is steady. Fodder and water are sufficient.
	Asansol ...	3.24	6	6	
	Katwa ...	0.42	5	4½	
	Kalna ...	1.98	4½	4½	
7	BIRBHUM ...	1.17	5½	5½	Condition of winter rice is bad throughout the Rampurhat subdivision. Only 30 per cent. of lands have been transplanted. Agricultural labourers are unemployed. Test works have been opened at Moraroi; 400 persons work per day since 1st September. More works are being opened. Fodder and water are sufficient. Transplantation of winter paddy is completed. Fodder and water are sufficient. Cattle-disease is reported from Indas.
	Rampurhat ...	2.35	5	5	
8	BANKURA ...	2.44	6½	6	Weather seasonable. Prospects of jute are fair. Fodder and water are sufficient.
	Vishnupur ...	3.32	5½	5½	
9	MIDNAPORE ...	1.81	5½	5½	Weather seasonable. More rain is wanted for transplantation of winter rice. Prospects of jute are fair; no damage. Harvesting continues. Fodder is sufficient.
	Contai ...	1.62	5½	5	
	Tamluk ...	0.78	4½	4½	
	Ghatal ...	1.49	5½	5½	
	Jhargram ...	1.67	6	6	
10	HOOGLY ...	1.91	5	5½	Weather seasonable. More rain is wanted for transplantation of winter rice. Prospects of jute are fair; no damage. Harvesting continues. Fodder is sufficient.
	Serampore ...	2.50	5	5	
	Arambagh ...	4.21	5½	5½	
11	HOWRAH ...	0.60	5½	5½	Transplantation of winter paddy is nearly finished. Harvesting of jute continues. Sugarcane is thriving.
	Uluberia ...	1.34	5½	5½	
12	RAJSHAHI ...	2.66	5	4½	Condition of paddy is not favourable. More rain is wanted. Steeping of jute is not possible for scarcity of water. Half of jute has been harvested in Naogaon. Harvesting of <i>aus</i> paddy is going on.
	(RAMPUR-BOALIA). Naogaon ...	1.11	4½	4½	
	Nator ...	1.61	4½	4½	
13	DINAJPUR ...	5.66	4½	4½	Weather cloudy. Recent rains have facilitated the transplantation of winter paddy in Balurghat police-station and in some portions of Tapan police-station. More rain is needed for transplantation of winter paddy and steeping of jute. Fodder and water are sufficient. Export of rice on a large scale continues from Balurghat.
	Thakurgeon ...	7.14	4½	4½	
	Balurghat ...	6.89	5	5	
14	JALPAIGURI ...	12.96	4½	4½	Condition and prospects of jute and other standing crops are fair. The effects of weather are favourable. No damage. Harvesting and steeping are going on.
	Alipur ...	11.25	4½	5½	
15	DARJEELING ...	10.64	4	4	Potatoes and maize are being harvested and <i>marua</i> is growing. <i>Bhadai</i> paddy is progressing. Condition of jute is not favourable. Weather effects are not good. No damage is reported. Harvesting continues. Fodder and water are sufficient.
	Kurseong ...	5.86	5	4	
	Siliguri ...	13.10	4½	4½	
	Kalimpong ...	6.05	5	5	

Serial No.	District and subdivisions.	Rainfall.	Price of common rice, in seers, per rupee.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
16	RANGPUR ...	7.33	4½	4½	Weather seasonable. Steeping and washing of jute are going on. No damage is reported. Fodder and water are sufficient.
	Nilphamari ...	(n)	(n)	(n)	
	Kurigram ...	7.27	5	5	
	Galbandha ...	4.45	4½	4½	
17	BOGRA ...	2.87	4½	4½	The recent scanty rain was not sufficient to resume the transplantation of <i>aman</i> paddy. Washing of jute in insufficient water is deteriorating the quality.
18	PABNA ...	0.52	4½	4½	Recent rain has improved the prospects of <i>aman</i> paddy. Prospects of other crops are fair. Fodder and water are sufficient.
	Sirajganj ...	1.94	4½	4½	
19	MALDA ...	2.24	5	5	Weather hot and cloudy. Prospects of standing crops including jute and effects of weather on jute are unfavourable. Cutting and washing of jute are very slow. Harvesting of <i>bhadoi</i> crops continues. More rain is badly needed for broadcast paddy and jute. Fodder and water are sufficient.
20	COOCH BEHAR	8.39	5½	5½	Weather cloudy and rainy. Condition and prospects of jute and weather effects are fair. No damage is reported. Cutting, steeping and washing of jute are in progress. Fodder and water are sufficient.
21	DACCA ...	1.14	5	5	There was good rainfall during the week. Transplanting of winter paddy and cutting and steeping of jute are going on. In some places prospects of jute as well as those of other standing crops are not satisfactory for want of timely rains, but recent rains have benefited the steeping of jute and transplantation of winter paddy in high lands. Fodder and water are sufficient.
	Manikganj ...	4.34	5	5	
	Narayanganj ...	(n)	(n)	4½	
	Munshiganj (a)	3.82	5	5	
22	MYMENSINGH	3.10	4½	4½	Weather rainy. Prospects of crops are normal. About 10 annas of jute have been harvested. Fodder and water are available.
	Jamalpur ...	3.94	4½	4½	
	Tangail ...	(n)	(n)	4½	
	Netrakona ...	9.23	4½	4½	
	Kishorganj ...	(n)	(n)	4½	

(a) Munshiganj being very near to Dacca and Narayanganj, its rainfall statistics are not quoted. To give information regarding the northern part of the district, rainfall figures for Kapasia thana are reported here.

(n) Not reported.

Serial No.	District and subdivision.	Rainfall.	Price of common rice, in seers, per rupee.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
23	FARIDPUR ...	3.24	4½	4½	Harvesting of jute and <i>aus</i> paddy still continues. Prospects of jute and paddy are fair. Fodder is sufficient.
	Goalundo (Rajbari).	2.11	4½	4½	
	Madaripur ...	2.59	5	5	
	Gopalganj (a) ...	0.53	5½	4½	
24	BAKARGANJ (BARISAL).	2.51	4½	4½	Weather rainy. Condition of jute is fair. Harvesting of the crop in high lands still continues. Fodder and water are sufficient.
	Pirojpur ...	5.91	4½	4½	
	Patuakhali ...	5.00	4½	4½	
	Dakshin Shabazpur (Bhola).	2.98	5	5	
25	CHITTAGONG ...	28.29	{ 6 6° }	{ 6 6° }	Harvesting of <i>aus</i> paddy is completed. Recent rain has helped transplantation of <i>aman</i> crops. Prospects of standing crops are fair. Fodder and water are sufficient. <i>Panga</i> salt sells at 13 seers per rupee at Sadar and at 12½ seers at Cox's Bazar. Cattle-disease is reported from Cox's Bazar, Raozan, Rangunia and Fatikchhari.
	Cox's Bazar ...	8.52	5	5	
26	TIPPERA (COMILLA).	2.10	4½	4½	Weather rainy. Prospects of standing crops are fair. Harvesting of jute continues in full swing. Slight damage to jute in parts of Sadar is reported.
	Brahmanbaria	3.62	4½	5	
	Chandpur ...	2.96	5½	5½	
27	NOAKHALI ...	5.26	5	5	Weather rainy. Condition of standing paddy crop is improving. Fodder and water are sufficient.
	Feni ...	4.46	5	5	
28	CHITTAGONG HILL TRACTS.	13.75	5	6½	Weather heavily rainy. Harvesting of <i>jhum</i> interfered with and plough cultivation affected.
29	TRIPURA STATE	3.14	4½	4	Weather rainy and its effects are favourable. Harvesting of <i>aus</i> crops is finished. Transplantation of winter rice begins. Fodder and water are sufficient. Cleansed cotton sells at Rs. 22½ to Rs. 24 and jute at Rs. 7 to Rs. 8 per maund.

° Burma rice.

(a) The rainfall at Barisalpur, which is very near to Gopalganj, is not shown here.

C. ADDAMS-WILLIAMS,

Chief Engineer to the Government of Bengal.

CALCUTTA, the 7th September 1927.

**RESOLUTION ON THE REPORT ON THE POLICE ADMINISTRATION IN THE  
BENGAL PRESIDENCY FOR THE YEAR 1926.**

**GOVERNMENT OF BENGAL.**

**POLICE DEPARTMENT.**

**Police.**

CALCUTTA, THE 8TH SEPTEMBER 1927.

RESOLUTION—No. 4829Pl.

**READ—**

The report on the Police Administration in the Bengal Presidency for the year 1926.

Mr. T. C. Simpson, C.I.E., held the post of Inspector-General of Police throughout the year.

**Eastern Frontier Rifles.**—The efficiency and discipline of the Bengal Battalion were severely tested during the year when detachments, which were called upon to do duty in the disturbances in Calcutta, Kharagpur and elsewhere, proved of the greatest value in the maintenance and restoration of order. The Governor in Council has read with pleasure the messages of appreciation of the services of the Battalion sent to the Commandant by the Commissioner of Police, Calcutta, and the Officer Commanding 1st Battalion, Bengal-Nagpur Railway, and congratulates Major D. I. Macpherson on the state of efficiency to which he has brought the force under his command.

**Strength and recruitment.**—The Governor in Council has been struck by the large number of vacancies in the establishment of the police force and the consequent reaction on the health and contentment of the men owing to the frequent necessity of refusing leave. His Excellency in Council is also impressed by the fact that, in the opinion of the Inspector-General and his officers, men of the type desired are not presenting themselves for enlistment as constables. There can be no doubt that recruitment is affected by the low pay which contrasts unfavourably with the wages which can be earned in employments which involve less hardship and fewer restrictions on personal liberty than does service in the police force. The Governor in Council trusts that if proposals to increase the pay of the rank and file of the force are brought before the Legislative Council they will be examined carefully and sympathetically.

**Health of the Force.**—The health of the force showed no improvement on the previous year. The number of admissions to hospital was again very large. It has already been remarked that insufficient leave has contributed to this unsatisfactory state of affairs. Other causes are the low pay of the constables, bad housing and inadequacy of protective measures.

The proper housing of the police force is a matter of urgent importance, and the Governor in Council trusts that the Inspector-General will submit in due course complete self-contained proposals for providing the Bengal Police with adequate accommodation, wherever such is not at present available. Good housing will improve the health and efficiency of the police and prove economical in the long run.

**Discipline.**—It is regrettable that during the year there was a slight increase in the number of criminal cases brought by private individuals against members of the force and also in the number of convictions which followed. The fact that nearly half of the complaints were dismissed after a summary inquiry suggests that there is a tendency to bring false and

frivolous charges against the police. As such accusations are in many cases brought in order to obstruct investigation and prejudice the courts against investigating officers, the Governor in Council hopes that the educated public will accord to the Inspector-General the co-operation for which he has appealed in securing the punishment of persons who are responsible for bringing such charges. The exposure of investigating officers to reckless accusations is bound to have a bad effect on their morale and to react unfavourably on their work.

**Police Training School.**—The Inspector-General has remarked on the unsatisfactory result of reducing to three months the period of training which recruits undergo at the school. It has been satisfactorily proved that training in the districts is a very poor substitute. Having regard to the type of man now offering himself for enlistment and the high standard of discipline demanded of the force, the Governor in Council is convinced that nothing short of a six months' course at the school can be regarded as at all adequate, and agrees with the Inspector-General that the question of expanding the school demands immediate consideration. His Excellency in Council is glad to learn that the health of the men under training was good and congratulates the Medical officer on the excellent work which he has done.

**Crime and detection.**—The continued decrease in the number of cognisable cases including a fall of about 23 per cent. in the number of burglaries and about 16 per cent. in the number of thefts, is very gratifying. While it is possible that reluctance on the part of persons living at a distance from a police-station to report occurrences in which they have been the victims is, in some degree, responsible for the decrease, the Governor in Council thinks that it is reasonable to attribute it generally to the organisation of patrols, the use of the preventive sections of the Criminal Procedure Code and vigorous action under the law relating to the criminal tribes and gangs. The increase in the number of village defence parties has undoubtedly contributed to the reduction of offences against property, and the Governor in Council has read with great interest the account which the Inspector-General has given of good work done by such parties in the prevention of crime and in the arrest of suspects. The Inspector-General has dealt at some length with the number of acquittals of persons sent up for trial in cases reported to the police, but it will be seen from his report that in the percentage of convictions Bengal compares very favourably with other provinces.

**Revolutionary crime.**—The value of the powers conferred on Government by the Bengal Criminal Law Amendment Act is demonstrated by the contrast between the years 1923-24 with their long tale of outrages, and the period which has elapsed since the Act was passed. Vigilance on the part of the officers of the Criminal Investigation Department ending in the discovery of arms and ammunition in the possession of terrorists undoubtedly prevented a fresh series of outrages.

**Communal friction.**—The riots in Calcutta had repercussions in the mufassal, particularly at Pabna, Dacca and Kharagpur, which subjected the police force to the severest strain. The Governor in Council is satisfied that in these disturbances the difficult task of restoring order was carried out by the police with firmness, tact and impartiality in the face of considerable obstruction and malicious criticism.

**Rural Police.**—The Governor in Council regrets to note that there has been a further increase in the number of instances in which village chaukidars and dafadars were suspected to have participated in offences against property. He desires to repeat what was said last year about the necessity of selecting good men for appointment as village watchmen. He again requests Commissioners and District Magistrates to urge on union boards the advisability of raising the pay of these men. The Governor in Council observes that the Inspector-General has again complained of a falling off in the amount of information conveyed to thana officers by the rural police. The Inspector-General has attributed this to the partial transfer of control over chaukidars to union boards. His Excellency in Council does not at present

share the pessimistic view of the Inspector-General that this transfer of control will permanently interfere with the efficiency of the forces operating for the prevention of crime. In the present stage of transition, a president of a union board may be more eager to assert the importance of his position *vis-a-vis* that of the thana officer than to assist him, but His Excellency in Council hopes that, with the development of union boards and the increase of their activities in matters relating to sanitation and communications, the presidents will recognise the value of co-operation with the highly trained officers of the police force and will realise the necessity of furnishing them with any information which may be of value to them in the prevention and detection of crime.

His Excellency in Council has read with pleasure the list of officers whose good work has been brought to his notice and thanks Mr. Simpson for the energy and efficiency with which he has directed the police administration in the Presidency.

ORDER.—Ordered that copies of the resolution be forwarded to the Inspector-General of Police, Bengal, the Commissioner of Police, Calcutta, and all Commissioners of Divisions, for information.

Ordered also that the resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council.

W. D. R. PRENTICE,

*Chief Secretary to the Government of Bengal.*

#### DEPARTMENT OF AGRICULTURE, BENGAL.

##### Preliminary forecast of the *Bhadol* crops of Bengal, 1927-28.

(NOTE.—On an average of the five years ending 1925-26, the area under autumn rice in Bengal has represented some 61 per cent. of the total area under rice in British India.)

**Character of the season.**—Conditions were generally favourable for preparatory tillage and early sowings. The rainfall in April was generally above the normal in East Bengal while in West and North Bengal it was moderate. Germination and growth of the crops were satisfactory but slight damage was caused by drought in some tracts, notably in the districts of Nadia, Murshidabad, Jessore, Burdwan, Birbhum, Howrah, Malda, Faridpur, Noakhali and the Chittagong Hill Tracts. Later on alternate rain and sunshine helped the final development of the crops. On the whole a satisfactory crop is expected for the Province.

**Area.**—The total area sown with the different *bhadol* crops this year is reported to be 5,828,900 acres, as against 5,713,900 and 5,762,400, acres, respectively, in the corresponding and final forecasts of last year. Of this, the area under autumn rice is estimated at 5,069,400 acres, as against 4,960,600 and 5,015,400 acres reported respectively in the corresponding and final forecasts of last year.

**Outturn.**—According to the District Officers' estimates, the outturn of the different *bhadol* crops for the Presidency works out at 76 per cent. of the normal as against 74 and 78 per cent. reported, respectively, in the corresponding and final forecasts of last year. The autumn rice is reported to yield an outturn of 75 per cent. of the normal for the Province this year as against 74 and 79 per cent. reported, respectively, in the corresponding and final forecasts of last year. I consider this figure for autumn rice to be an under-estimate and that the outturn of the latter crop will not fall short of 85 per cent. of the normal this year.

DACCA, the 14th September 1927.

R. S. FINLOW,  
Director of Agriculture, Bengal.

## APPENDIX I.

Preliminary forecast of the *Bhadol* crops in Bengal, 1927-28.

District.	Names of crops.	Estimated normal area under each crop.	Estimated area under each crop.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the sowing of each crop was begun this year, and whether that date was early, normal or late.	Remarks by District Officers.
			Last year.	This year.	Last year.	This year.		
24 Parganas.	<i>Bhadol</i> paddy (autumn rice).	63,300	64,000	49,100	100	82	End of March to middle of July. Normal.	The increase in area is due to timely rain at sowing time and to fall in the price of jute. The weather has been favourable on the whole. The fall in outturn is due to want of timely rain after the sowing has been finished.
	Indian corn (maize) ...	...	100	100	88	67		
	Other <i>bhadol</i> cereals ...	800	1,000	1,100	67	80		
	Other <i>bhadol</i> pulses ...	1,200	200	200	82	78		
	<i>Bhadol</i> fruits and vegetables, including root-crops.	2,800	2,800	2,200	97	83		
	Other <i>bhadol</i> food-crops.	1,000	1,800	1,700	82	76		
	<i>Bhadol</i> fodder-crops, other than jowar, bajra, munda and maize.	...	600	800	50	82		
	<i>Bhadol</i> fibres other than jute.	...	...	100	...	67		
	<i>Bhadol</i> non-food crops other than fodder and fibres.	1,000	1,800	1,200	88	67		
	Total ...	73,800	42,000	63,200	87	81		
Nadia.	<i>Bhadol</i> paddy (autumn rice).	641,500	636,500	554,500	93	67	...	The decrease in area is due to want of sufficient rain in the different parts of the district at sowing time. The outturn is much below the normal owing to insufficient rain which retarded the growth of the crops.
	Jowar ...	...	200	...	67	...		
	Mandua, munda or ragi.	100	100	100	80	80		
	Indian corn (maize) ...	800	100	...	67	...		
	Other <i>bhadol</i> cereals ...	6,000	3,700	5,700	78	67		
	Other <i>bhadol</i> pulses ...	1,000	...	...	...	...		
	Indigo ...	1,000	...	...	...	...		
	<i>Bhadol</i> fruits and vegetables, including root-crops.	8,400	9,800	1,800	67	50		
	Other <i>bhadol</i> food-crops.	5,800	3,800	1,700	78	42		
	<i>Bhadol</i> fodder crops other than jowar, bajra, munda and maize.	1,800	2,000	2,900	67	67		
	<i>Bhadol</i> fibres other than jute.	...	200	200	67	88		
	Mulberry ...	200	200	...	67	...		
	<i>Bhadol</i> non-food-crops other than fodder and fibres.	8,900	14,800	14,100	67	50		
	Total ...	674,600	603,600	560,600	92	66		
Murshidabad.	<i>Bhadol</i> paddy (autumn rice).	229,000	122,700	141,400	75	67	Kandi middle of July. Elsewhere, middle of May. Normal.	The increase in area is due to favourable weather at sowing time. The weather since the sowing time has been fair. Occasional drought has caused some damage.
	Jowar ...	400	100	100	78	75		
	Bajra ...	200	100	100	88	78		
	Mandua, munda or ragi.	1,000	400	800	67	88		
	Indian corn (maize) ...	700	600	700	67	67		
	Other <i>bhadol</i> cereals ...	4,700	2,100	2,000	67	67		
	Other <i>bhadol</i> pulses ...	2,800	1,800	1,800	67	67		
	Indigo ...	2,100	...	...	...	...		
	<i>Bhadol</i> fruits and vegetables, including root-crops.	2,600	1,000	1,100	78	78		
	Other <i>bhadol</i> food-crops.	4,100	2,500	2,700	78	78		
	<i>Bhadol</i> fodder crops other than jowar, bajra, munda and maize.	4,800	2,200	2,000	78	67		
	<i>Bhadol</i> fibres other than jute.	800	400	800	78	67		
	Mulberry ...	5,400	2,200	2,300	67	67		
	<i>Bhadol</i> non-food crops other than fodder and fibres.	5,200	3,800	5,600	67	67		
	Total ...	267,100	140,800	160,200	74	67		

**SUPPLEMENT TO THE CALCUTTA GAZETTE, SEPTEMBER 22, 1927. 1143**

District.	Names of crops.	Estimated normal area under each crop.	Estimated area under each crop.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the sowing of each crop was begun this year and whether that date was early, normal or late.	Remarks by District Officers.
			Last year.	This year.	Last year.	This year.		
Jharkhand.	Bhadai paddy (autumn rice).	880,400	808,500	104,600	86	88	April. Normal.	The decrease in area is due to want of timely rain. The weather has not been favourable. Want of sufficient rain accounts for the fall in outturn.
	Other bhadao cereals ...	13,500	6,800	6,800	86	86		
	Other bhadao pulses ...	14,800	5,500	5,500	81	83

\* Director's estimate is 85 per cent.

## DEPARTMENT OF AGRICULTURE, BENGAL.

## First Forecast of the Winter Rice Crop of Bengal, 1927-28.

(NOTE.—On an average of the five years ending 1925-26, the area under winter rice in Bengal has represented some 18·6 per cent. of the total area under rice in British India.)

**Character of the season.**—At the beginning of the season the weather was generally favourable for tillage operations for broadcast paddy. These commenced in the usual time. Conditions were also favourable from March to May, when sowing was in progress and a large area was brought under cultivation in East and North Bengal districts. Good rainfall in May helped preparatory operations for transplanted paddy and its sowing in seedbeds was done in favourable conditions at first. Further progress was slow on account of insufficient rainfall in June. In July transplantation was commenced in lower lands, but satisfactory progress could not be made on higher tracts on account of lack of rain. In Midnapore, however, heavy rain caused floods and damaged the crops in Contai subdivision. In August the rainfall was again in general defect, and transplantation was suspended, notably in parts of Midnapore, Nadia, Burdwan, Murshidabad, Birbhum, Rajshahi, Bogra, Rangpur, Dinajpur, Malda, where, in some parts, seedbeds were destroyed. In other tracts progress was good owing to local rain. As a result of the weak monsoon there is at present a reduced area, but recent favourable rainfall will appreciably diminish the deficiency. In the important district of Bakarganj a normal crop is expected. On the whole the outlook of broadcast paddy is promising. That of transplanted rice is fair, and perhaps it depends to a greater extent than usual on the future progress of the monsoon.

**Area.**—According to the figures returned by the District Officers, the total area under winter rice is 13,193,900 acres as compared with 13,943,100 and 14,448,300 acres (revised) in the corresponding and final forecasts of last year. The decrease is attributed to want of sufficient rainfall at the time of transplantation.

**Outturn.**—From the summary of the district returns appended, it will be seen that Bankura and Bakarganj report a normal crop, twelve districts expect 80 to 92, one district 75 and the rest below 70 per cent. of the normal. According to the above estimates, the provincial outturn works up to 79 per cent. as against 87 and 85 per cent. of the normal estimated respectively in the first and final forecasts of last year.

ROBERT S. FINLOW,

DACCA, the 14th September 1927.

Director of Agriculture, Bengal.

## APPENDIX I.

## First Forecast of the Winter Rice Crop of Bengal, 1927-28.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the sowing of broadcast winter rice generally commenced this year and whether that date was early, normal or late.	Date by which the transplanting of winter rice commenced this year and whether that date was early, normal or late.	Remarks by District Officers.
		Last year (1926-27).	This year (1927-28).	Last year.	This year.			
	Acres.	Acres.	Acres.					
24-Parganas ...	840,800	820,000	808,800	93	83	End of April to beginning of July. Normal.	July. Normal ...	The increase in area is due to timely rain at sowing time and to fall in the price of jute as well. The weather has not been favourable.
Nadia ...	136,800	123,000	121,800	63	50	Latter part of April. Normal.	Second week of July. Late.	The outturn is anticipated to fall below the normal for want of timely rain after the sowing has been finished. Want of sufficient rain has affected the crop and the outturn is anticipated to fall much below the normal, if the rainfall conditions do not improve soon.
Moradabad ...	331,400	280,000	125,500	75	50	.....	July. Late ...	The decrease in area is due to want of sufficient rain at the time of sowing and transplanting. The weather has not been favourable. The outturn is anticipated to fall much below the normal owing to drought.
Jessore ...	336,800	309,300	373,300	76	61	May. Late ...	Middle of July. Late.	The decrease in area is due to heavy rainfall at the sowing time. The weather has not been favourable. The outturn is expected to fall below the normal owing to drought.
Khulna ...	906,300	802,000	804,300	100	83	.....	July and August	The decrease in area is due to drought. The weather has not been favourable and its effect on the cultivation and growth of the crop is not good. The outturn is anticipated to fall below the normal owing to want of timely rain.
Bardwan ...	731,100	731,400	481,900	93	67	.....	Beginning of August. Late.	The decrease in area is due to want of sufficient rain at sowing time. The weather has not been favourable and the outturn is much below the normal.
Birbhum ...	804,700	847,900	487,300	93	67	.....	Latter part of July. Late.	The decrease in area is due to insufficient rainfall, especially in Rampurhat subdivision. The weather has not been favourable. The outturn is likely to fall below the normal owing to insufficient rainfall and late transplantation.
Bankura ...	440,000	374,000	317,000	135	100	.....	Latter part of July.	The decrease in area is due to late and insufficient rainfall in the Vishnupur subdivision. The weather has been favourable and its effects on the growth of the crop being beneficial, a normal outturn is anticipated.
Midnapore ...	1,537,100	1,189,800	1,474,800	87	83	Latter part of May. Normal.	July. Normal ...	The increase in area is due to extended cultivation. The weather has not been favourable at the sowing time but fair afterwards. The outturn is anticipated to fall below the normal owing to heavy rains in July.
Hooghly ...	352,800	197,100	108,800	98	58	Third week of June. Late.	Middle of July. Late.	The decrease in area is due to unfavourable weather conditions and to late transplantation. Drought has retarded the transplantation and has stunted the growth of the crops. Damage to the extent of about 4 annas in the Sadar subdivision and 5 annas in the Arambagh subdivision has been done to the crop by drought. It has also appreciably damaged the crop in the Serampore subdivision. The outturn is anticipated to fall much below the normal.
Howrah ...	1,17,000	90,500	90,500	93	93	.....	Middle of July. Late.	The decrease in area is due to want of rainfall. The weather has been good but more rain is wanted for transplanting operations. Weather effects on the cultivation and growth of the crop are fair and about a normal outturn is expected.
Malhabli ...	821,700	588,400	401,300	73	55	April. Normal ...	July. Normal ...	The decrease in area is due to drought. Transplantation has been greatly hampered for want of timely rain. The weather has been uniformly unfavourable and the outturn is anticipated to fall much below the normal.
Dinajpur ...	1,038,800	900,000	578,900	53	58	Middle of May. Normal.	Latter part of July. Late.	The decrease in area is due to inadequate rainfall at the sowing time. The weather has not been favourable. The outturn is anticipated to fall much below the normal owing to damage caused by drought.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the sowing of broadcast winter rice generally commenced this year and whether that date was early, normal or late.	Date by which the transplanting of winter rice commenced this year and whether that date was early, normal or late.	Remarks by District Officers.
		Last year (1926-27).	This year (1927-28).	Last year.	This year.			
	Acres.	Acres.	Acres.					
Jalpaiguri ...	467,400	412,000	395,000	83	92	—	Beginning of July	The decrease in area is due to insufficient rainfall at the time of transplantation. The weather has not been favourable and the outturn is anticipated to fall a little below the normal.
Darjeeling ...	30,500	24,900	22,900	83	81	—	June ...	The weather and its effects on the cultivation and growth of the crop are fair.
Raipur ...	692,000	681,000	600,000	100	87	Middle of May. Normal.	June. Normal ...	The decrease in area is due to the fact that the transplantation is being retarded for want of rain.
Bogura ...	361,900	372,800	300,000	75	40	End of March. Normal.	July. Normal ...	The unfavourable conditions of weather are responsible for the decrease in area and a low outturn is anticipated.
Pabna ...	404,900	395,900	400,000	100	78	May. Normal ...	Ditto	The weather has not been favourable owing to want of rain which has adversely affected the growth of the crop. The outturn is anticipated to fall below the normal owing to damage caused by insect pests and rapid rise of the Jamuna in low-lying tracts.
Malda ...	304,000	108,000	80,000	43	33	End of May. Normal.	Latter part of July. Late.	The decrease in area is due to want of rain fall at the sowing time. The weather has been fair in the beginning but unfavourable afterwards. The outturn is anticipated to fall below normal owing to damage caused by drought.
Dacca ...	672,400	634,800*	648,500	96	80	April. Normal.	July to August ...	The increase in area is due to decrease in area under jute. The weather was normal for broadcast paddy, but not favourable for transplanted one owing to drought. The outturn is anticipated to fall below the normal.
Mymensingh ...	1,448,900	1,331,800	1,311,800	78	80	First part of April. Normal.	July. Normal ...	The weather was favourable at the sowing time but unfavourable afterwards owing to want of rain. The decrease in area is due to heavy rainfall during the sowing time.
Faridpur ...	789,800	611,800	597,800	88	83	End of March and April. Normal.	—	The weather was fairly favourable at sowing time but subsequent drought has damaged the crop.
Bakarganj ...	1,800,000	1,346,000	1,360,000	83	100	April to May. Normal.	July. Normal ...	The increase in area is due to cultivation of less area under jute this year and to the high price of rice. The weather has been favourable on the whole and a normal outturn is expected.
Chittagong ...	418,400	429,000	399,000	96	87	—	August. Late ...	The decrease in area is due to cattle-mortality and to want of sufficient rain at the sowing time. The weather has not been favourable, and the outturn is likely to be affected.
Tipperah ...	787,000	795,000	795,000	92	92	Middle of March and April. Normal.	End of July to August. Normal.	The weather was favourable at the sowing time but not so afterwards. Want of timely rainfall has affected the growth of the crop. Damage to the extent of two annas has been caused by water-hyacinth in Brahmaputra and the outturn is anticipated to fall a little below the normal.
Northall ...	708,000	418,000	369,200	92	63	End of May. Normal.	End of July. Normal.	The increase in area is due to fall in the price of jute last year. The weather has not been favourable for want of timely rain. The outturn is likely to fall below the normal (insufficient rainfall).
Chittagong Hill Tracts.	30,000	48,000	48,000	67	67	Last week of April. Early.	First week of August. Normal.	The increase in area is due to opening of new lands for plough cultivation. The weather has not been favourable owing to insufficient rain. Damage to jute by rats is reported from a few mauzas in police-station Lama.
Total Bengal ...	16,240,700	14,448,300*	13,193,900	85	79			

\* Revised.

**JAGAT PRASAD,**  
*Accountant-General, Bengal.*

**J. R. WOODHEAD,**  
*Secretary to the Government of Bengal,  
Finance Department.*

**CALCUTTA IMPROVEMENT TRUST.**

THE accounts of the Calcutta Improvement Trust for the year 1925-26 having been audited by an Auditor appointed by Government, the following abstract of account is published in accordance with the provisions of section 136 of the Bengal Act V of 1911.

M. R. ATKINS,  
Chairman (offg.).

CALCUTTA, the 14th September 1927.

**Annual Accounts for the year ended 31st March 1926.**

CHAIRMAN--I beg to submit the accounts for the year ended 31st March 1926.

**CAPITAL ACCOUNT.**

**Receipts.**--The receipts for the year ended 31st March 1926, amounted to Rs. 23.96 lakhs (exclusive of the 6 per cent. Debenture Loan of Rs. 50 lakhs raised on 6th October 1925), against the annual Budget estimate of Rs. 22.87 lakhs. The actuals and estimates of the different sources of receipts compare as follows :--

	Budget.	Actuals.	Difference.
	Ra.	Ra.	Ra.
Fees under section 78 ...	2,00,000	3,03,500	+ 1,03,500
Sale of land ...	20,00,000	19,16,400	- 83,600
„ „ buildings ...	75,000	1,76,300	+ 1,01,300
Fees for footings* ...	9,000	300	- 8,700
Sale of old materials, etc. ...	3,000	200	- 2,800
<b>Total ...</b>	<b>22,87,000</b>	<b>23,96,700</b>	<b>+ 1,09,700</b>

\* Since 15th June 1926 fees for footings are credited to a Suspense Account as these will be made over to the Corporation in terms of the Resolution No. 10 of the meeting held on 15th June 1926.

**Expenditure.**--The total expenditure for the year was Rs. 64.43 lakhs or Rs. 23.50 lakhs below the budget provision. The main items of difference between the actuals and estimates compare as follows :--

	Budget.	Actuals.	Difference.
	Ra.	Ra.	Ra.
Cost of land ...	60,00,000	46,97,000	- 13,03,000
Engineering works (including stores) ...	25,84,800	15,10,000	- 10,74,800
Other charges ...	2,08,200	2,36,800	+ 27,800
<b>Total ...</b>	<b>87,93,000</b>	<b>64,43,000</b>	<b>- 23,50,000</b>

No value is included in the assets side of the balance sheet in respect of surplus land in possession of the Trust nor in respect of mortgages and rent charges executed by the purchasers. These at 31st March 1926 were estimated to be as follows :--

	Ra.
Surplus land available for auction ...	1,48,86,000
Open spaces not available for auction ...	59,55,000
Re-housing scheme ...	38,61,000
Excavation area ...	8,65,000
Storeyard ...	99,000
Mortgages and rent charges ...	60,36,000
<b>Total ...</b>	<b>3,17,02,000</b>

The total loans raised by the Trust amount to Rs. 2,73,50,000.

The closing balance on Capital Account which it was estimated would amount to Rs. 261.44 lakhs stood at Rs. 232.31 lakhs arrived at as follows:—

			Estimated. Rs.	Actuals. Rs.
Opening deficit	...	...	246.38 lakhs.	241.85 lakhs.
Receipts, 1925-26	...	...	22.87 "	23.97 "
			223.51 "	217.88 "
Debenture loan	...	...	50 "	50 "
			173.51 "	167.88 "
Expenditure, 1925-26	...	...	87.95 "	64.43 "
			173.51 "	167.88 "
Total	...	...	261.44 "	232.31 "

#### REVENUE ACCOUNT.

**Receipts.**—The total receipts for the year are Rs. 45.66 lakhs against a budget estimate of Rs. 33.71 lakhs. The increase is due mainly to receipts under duty or jute, rent, rent charges and rebate of interest on debenture loans in excess over the annual budget estimate.

**Expenditure.**—The expenditure for the year was Rs. 25.88 lakhs against a budget provision of Rs. 33.22 lakhs. The decrease Rs. 7.34 lakhs is principally due to savings against the provision for expenditure on interest on Sterling Debenture Loans, Discount and Loss of Exchange on the Year's Loan, establishment and other charges.

The closing balance on Revenue Account shows a surplus of Rs. 3,24,45,450-10-9, of which a sum of Rs. 2,32,31,040-15-9 has been spent on Capital Account to meet payments in excess of Capital Receipts. The net balance of Rs. 92,14,409-11-0 was held as follows:—

			Rs.	A.	P.
Government Promissory Notes and other securities	...	...	31,67,191	0	0
Floating deposits	...	...	1,05,000	0	0

CHAS. A. BENTLEY, M.B., D.P.H., D.T.M. & H., Director of Public Health, Bengal.

CALCUTTA, the 10th September 1927.

## DEPARTMENT OF AGRICULTURE, BENGAL.

## Monthly Weather and Crop Report of Bengal for August 1927.

I. **Character of the season.**—During the month under review the rainfall was markedly in defect of the normal throughout the Presidency excepting in Midnapore only, where it was a little in excess of the average. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Transplantation of winter paddy was delayed on a wide scale for want of adequate rain and the progress was below normal. Harvesting of autumn paddy was nearly completed in East and North Bengal. Cutting of jute was proceeding but lack of sufficient water for steeping and washing was generally felt.

III. **State of standing crops.**—Excepting transplanted winter paddy in certain tracts the condition of standing crops was generally fair.

IV. **Prospects and probable outturn.**—The prospects of deep water paddy, sugarcane and other standing crops were promising. A satisfactory crop is expected for autumn rice.

V. **Damage to standing crops.**—Damage by drought and insect pests is reported from places in some West and North Bengal districts.

VI. **Condition of agricultural stock.**—During the month, cattle-disease was reported from eleven districts of the province and also from the States of Cooh Behar and Tripura. Rinderpest in an epidemic form was reported from Bankura during the early part of the month.

VII. **Failure of pasturage and fodder.**—Supply of fodder was reported to be adequate during the month.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the price of common rice of the cheapest quality rose in eleven districts, fell in six and remained stationary in the rest of the province. It varied from 7 seers per rupee at Chittagong to 4½ seers per rupee at Mymensingh.

IX. **Condition of agricultural population.**—The condition of agricultural population was fair on the whole.

ROBERT S. FINLOW,

Director of Agriculture, Bengal.

DACCA, the 14th September 1927.

## DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 14th September 1927.

**Summary.**—During the week the rainfall was generally light to moderate. Transplantation of winter paddy is being facilitated by the recent rain, but more rain is still needed for the operation and for the steeping of jute in places, especially in some West and North Bengal districts. Harvesting of autumn paddy is nearing completion and that of jute on highland continues in full swing. The outlook of standing crops is generally fair except in some West Bengal districts and Malda where the condition is not much satisfactory. Distress continues to prevail in parts of the Rampurhat subdivision of Birbhum where agricultural and land improvement loans are being distributed and test relief works have been opened and 768 persons are working daily. The average price of common rice for the province has risen by about 0·81 per cent. as compared with that of the previous week.
